OBJECTIVE

To secure a challenging and responsible position as a **Software Developer**

PROFILE

Results-driven Software Developer with **3+ years of experience** in web and Windows application development, debugging, and testing. Experienced in Microsoft .NET technologies, including C# and VB.Net, with hands-on expertise as a developer, debugger, and tester. Strong ability to work both independently and collaboratively within professional teams. Logical thinker with solid problem-solving skills and the ability to manage multiple assignments in fast-paced, high-pressure environments while consistently meeting tight deadlines. Excellent active listener with strong oral and written communication skills. Highly organized with great attention to detail. Self-motivated, proactive professional with a strong commitment to customer service excellence.

CORE STRENGTHS

- 2+ years of experience in developing and maintaining .NET Windows and Web applications using C# and VB.Net, with strong knowledge of OOP and SQL Server.
  Skilled in debugging, performance optimization, and delivering reliable solutions within Agile team environments.
- 1 year of experience developing Windows and web applications using C#, VB.Net, ASP.Net, LINQ, AJAX, JSON, Delphi 7, JavaScript, jQuery, CSS, XML, WCF, Web API, Entity Framework, and Web Services, with Telerik Controls and TFS for version control and debugging.

WORK EXPERIENCE

Software Developer *2022 Jan – 2024 Jan*

Genpact - Hyderabad, India

- Designed, developed, and maintained scalable web and Windows-based applications using Microsoft .NET technologies (C#, ASP.NET, VB.Net).
- Built responsive front-end interfaces using HTML5, CSS3, JavaScript, and modern frameworks to enhance user experience and application performance.
- Developed RESTful APIs and integrated third-party services to support seamless data exchange between systems.
- Worked extensively with SQL Server for database design, query optimization, stored procedures, and performance tuning.
- Participated in the full Software Development Life Cycle (SDLC), including requirement analysis, system design, development, testing, deployment, and post-production support.
- Debugged, troubleshot, and resolved application issues to ensure optimal performance and reliability.
- Collaborated with cross-functional teams, including business analysts, QA testers, and project managers, to deliver high-quality solutions within tight deadlines.
- Implemented version control using Git and followed Agile/Scrum methodologies for iterative development.
- Conducted unit testing and supported UAT to ensure application stability and functionality.
- Enhanced application security, authentication, and authorization mechanisms to protect sensitive data.
- Provided technical documentation and knowledge transfer sessions to support teams and stakeholders.

Front-End Developer *2021 Feb – 2021 Dec*

Infosys – Hyderabad, India

- Developed scalable single-page applications (SPA) using **React.js, Next.js, and TypeScript**
- Built reusable UI component libraries using modern component-based architecture
- Implemented advanced state management using React Hooks and Context API

Environment: Visual Studio Code, MS Visual Studio, React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), TypeScript, Node.js, Express.js, MongoDB, MySQL, PostgreSQL, ASP.NET Core, RESTful Services, Firebase Authentication, JWT, Git, GitHub Repository, Postman, Docker (basic), CI/CD concepts, Agile Methodology, JSON, Axios, MVC Architecture, Responsive Design, Figma

EDUCATION

Mechanical Engineering 2022
KITS College, Hyderabad, India

M.P.C 2018
Sri Chaitanya Junior College, Hyderabad, India

Trivi High School 2016
Warangal

PROFESSIONAL DEVELOPMENT

Advanced JavaScript (ES6+, Async Patterns, Performance Optimization)	2021
React.js Advanced Patterns & Scalable Front-End Architecture	2021
Node.js Backend Engineering & API Architecture	2022
Advanced RESTful API Development & Middleware Design	2022
TypeScript for Large-Scale Applications	2023
.NET 6 / ASP.NET Core Web API Development	2023
Database Performance Tuning & Query Optimization (SQL & NoSQL)	2024
CI/CD Automation for Developers (GitHub Actions / Azure DevOps)	2024
Containerization with Docker for Application Deployment	2024
